1981 Article Index

Systems Management Principles

Order out of confusion (Jan.)
Gary O. Glenn, et. al

Quarterback or coach: Surviving the management transition (Feb.)
Dr. Joseph R. Nevotti II

Decision support systems (Feb.)
Robert T. Leighton

Profitability analysis in the decision-making process (Mar.)
Dr. Stanley C. W. Salvary

New kid on the block (Apr.)
Stephen A. Dimino

Being efficient while "giving the store away" (May)
Belden Menkus

Where are the alternatives? (May)
John A. McGann

Life in the organizational ecosystem (Aug.)
Belden Menkus

Management procedures (Sept.)
F. W. Fleischhauer

Guide to office equipment demonstrations (Oct.)
Jack W. Prouty

Another route to productivity gains (Nov.)
John A. McGann

Test for a systems analyst (Dec.)

Managing the Systems Effort

Determining organizational information requirements (Jan.)
Miles H. Hudson

Obections to objective costing (Jan.)
W. J. Boczany

Forecasting information systems: The data base module (Jan.)
Conway Lee Lackman

Systems, reality and the systems practitioner (Jan.)
Edward M. Canavan

Decision support systems (Feb.)
Robert T. Leighton

Security of electronic funds transfer systems (Feb.)
Jason Gait

Test plan development (Feb.)
Robert J. Smolenski

Recovery from disaster (Feb.)
Roger L. Paul

Intangibles in cost/benefit analysis (Feb.)
Dr. Charles R. Litecky

Problem avoidance in the user/analyst relationship—Part 1 (May)
Marc S. Miller

Preimplementation activities (May)
Col. Len Lee

IRM professionals can win manager's recognition—Part 1 (May)
William F. Haase

IRM vrs. the office of the future (May)
John J. Connell

Organizing a successful management needs analysis (June)
Gale E. Newell

Problem avoidance in the user/analyst relationship—Part 2 (June)
Marc S. Miller

IRM professionals can win manager's recognition—Part 2 (June)
William F. Haase

Understanding user responsibilities (July)
Robert T. Leighton

Automated standards management (July)
Richard A. Schmidt

How to get users to follow procedures (July)
Elizabeth Berry

Analytical tools for increased productivity (July)
Helen Deresky

Systems planning for rapidly growing companies (Aug.)
Richard W. Hoole

Productivity improvement for office systems (Aug.)
Mary Baumgardner

Implementing automated office systems (Aug.)
Dr. James C. Wetherbe, Charles K. Davis and Charlene A. Dykman

Planning the business data environment (Sept.)
Arnold M. Cohn

Project management in the year 2000 (Oct.)
Dr. Harold Kerzner

Disaster recovery plan (Oct.)
B. William Swank

The new system arrives (Nov.)
Paul Koogler, Frank Collins and Donald K. Clancy

Why hasn't word processing worked better? (Nov.)
Belden Menkus

The case for internal consulting (Nov.)
Gerald W. Czarnecki

Think tank technology for systems management (Nov.)
Dr. C. C. Crawford and Dr. John W. Demidovich

Alternative work pattern applications (Dec.)
Dr. Ben Burdetsky and Dr. Marvin Kaplan

Power to the people (Dec.)
Frank Greenwood and Mary Greenwood

Information requirements analysis (Dec.
Albert J. Lederer

Preventing environmental stress in the open office (Dec.)
Dr. Martha Rader and Dr. Jeanette Gilsdorf

Working capital management (Dec.)
Dr. Andrew Berczi

Solution implementation (Dec.)
John Nemec

Selection and Training of Systems Personnel

A future for programmers? (Feb.)
John Callahan

How to achieve and maintain white-collar productivity (Mar.)
Col. Len Lee

Instructional systems development (Apr.)
Dr. Alexander M. Gottesman

Computer manager of the 80's (June)
Dr. Stephen R. Ruth

The instant analyst—Resumes (June)
Merle P. Martin

How to know when it's time to change jobs (July)
Thomas W. Ferratt and Frederick A. Starke

Selecting and training junior analysts (Sept.)
Stephen A. Dimino

Improving worker attendance (Oct.)
Robert G. Ott

Training session success (Dec.)
Belden Menkus

Information Collection, Storage, Retrieval

Forms control—Fortune or flop? (Jan.)
W. Koeneke

Morale and process of documentation (Mar.)
James Rosenwinkel

Designing project control forms (Mar.)
Dr. Harold Kerzner and Paul Serpentini

How to achieve and maintain white-collar productivity (Mar.)
Col. Len Lee

Installing a new micromedia system (Apr.)
Col. Len Lee

Six critical elements of stockroom control (Apr.)
Belden Menkus

A plea for quality printouts (June)
Dr. Gibbs Myers

Converting paper records to micromedia—Part 1 (Aug.)
Col. Leonard S. Lee

Converting paper records to micromedia—Part 2 (Sept.)
Col. Leonard S. Lee

Converting paper records to micromedia—Part 3 (Oct.)
Col. Len S. Lee

Micros and word processors: The implementation options (Nov.)
Jerry G. Shidal

DP Hardware and Software Applications

Forecasting information systems: The data base module (Jan.)
Conway Lee Lackman

Order out of confusion (Jan.)
Gary O. Glenn, et. al.

A future for programmers? (Feb.)
John Callahan

Recovery from disaster (Feb.)
Roger L. Paul

Small business computer acquisition (Mar.)
Dorothy G. Dologite

Structured programming with COBOL (Mar.)
Warren Harrison

Understanding implementation failure (Mar.)
Tor Guimaraes

Software security: Legal aspects and traditional considerations (Apr.)
Steve Guynes and Jerry M. Dehay

Testing strategy (May)
Warren Harrison

Logical data base design in decision support systems (May)
Prabuddha De and Arun Sen

Evaluations of EDP systems development (June)
Charles L. Holley and Daniel M. Cash

Controls in an EDP environment (June)

Computer manager of the 80's (June)
Dr. Stephen R. Ruth

Computerized text management (July)
Jean S. Doremus

Minicomputer selection (July)
Charles P. Bilbrey and William C. House

Computers and the future (Aug.)
Jagdish R. Dalal

The case for the user-controlled microcomputer (Sept.)
Jeremy Grand

Software security (Oct.)
Myles E. Walsh

Disaster recovery plan (Oct.)
B. William Swank

Computer: Job gobbler or helpmate? (Nov.)
Christopher G. Jones

Computer graphics: A 20-year forecast (Nov.)
Tony Murlijacic

Finding the true cost of a small computer (Dec.)
Dr. Dorothy Dologite

Management Sciences

Intangibles in cost/benefit analysis (Feb.)
Dr. Charles R. Litecky

Universal systems model of organizational design (Aug.)
Dennis J. Lovelace

Working capital management (Dec.)
Dr. Andrew Berczi

Management Information Systems

Corporate strategy and MIS planning (Jan.)
Dr. Charles R. Litecky

Materials management and the bottom line (Apr.)
Dr. P. Ramalingam

Different approaches to information systems (Apr.)
Konrad E. Sadek and Dr. Edward Alexander Tomeski

Model procurement and development decision in MIS (July)
Terry Rakes and Lori Franz

The promise of small business information systems (Sept.)
Paul Hooper and John Page

Graphic Presentations and Reports

Writing policies and procedures manuals (Apr.)
Stephen A. Goldfarb

Instructional systems development (Apr.)
Dr. Alexander M. Gottesman

A plea for quality printouts (June)
Dr. Gibbs Myers

Automated standards management (July)
Richard A. Schmidt

Computerized text management (July)
Jean S. Doremus

How to get users to follow procedures (July)
